RE: New Road Segment Added to the New Access Haul

Dear Ms. Littig:

Enclosed are three drawings, one full size and two half size, for submittal of the permit change for addition of a new road segment to the New Access Haul Road. This access change is needed to better facilitate refuse handling.

This road segment is considered an extension of the existing New Access Road and is to be constructed and maintained following the design criteria for the New Access Haul Road.

In connection with this road addition, the existing drainage PAST-D3 is to be realigned as shown on Sheet 7-1A. The new alignment of this ditch is to be constructed following the design criteria already approved in the permit. The culvert PAST-C1, which was approved previously, but has not yet been installed, will be installed in the new alignment as shown on Sheet 7-1A.

This is a minor amendment and lies on existing disturbed area, and would not require soil salvaging. SCA would greatly appreciate the Divisions help in approving this amendment as quickly as possible. Thank You.

If any additional information is needed please contact Rusty Netz at (435)888-4476.

Sincerely,

Agent For
